Size

One of the largest owners of net lease assets

Diversification

Highly diversified portfolio by geography, tenant, asset type and tenant industry

Track Record

Successful track record of investing and operating through multiple economic cycles since 1973 led by an experienced management team

Asset Management

U.S. and European asset management teams proactively manage tenant, property and leasing issues

Balance Sheet

Investment grade balance sheet with opportunity to access multiple forms of capital

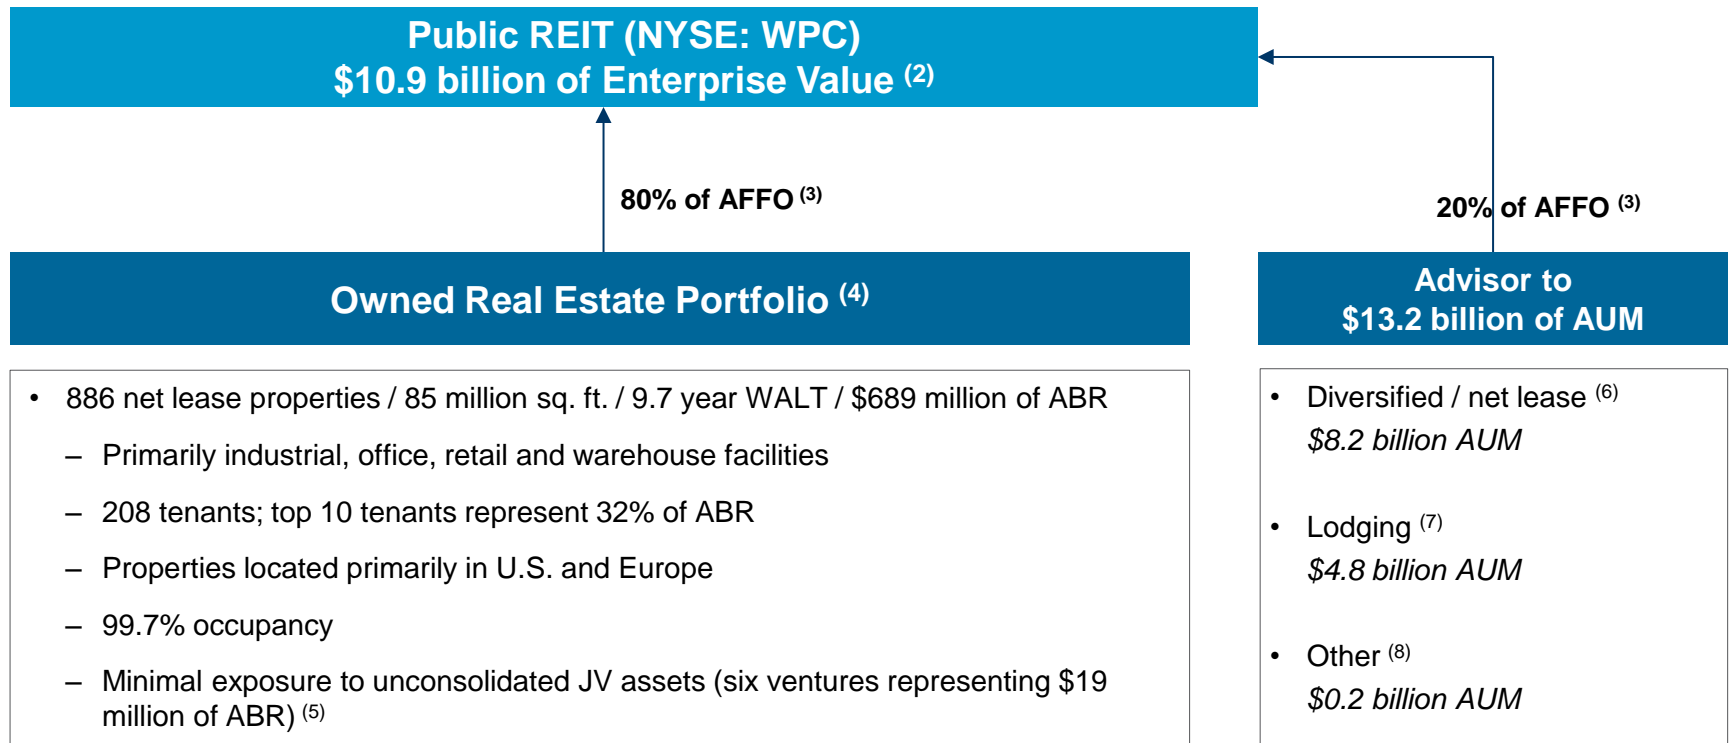

Fee Income

Generates fee income from management of assets on behalf of non-traded investment programs

Business Model and Structure ⁽¹⁾

W.P. Carey is an internally managed REIT and advisor to non-traded investment programs

Recent Advancements ⁽¹⁾

Since REIT conversion in September 2012

Acquisitions

- Completed \$9.7 billion in investments on our balance sheet comprised of:
 - \$7.0 billion through acquisition of CPA[®] REITs ⁽²⁾
 - \$2.7 billion through single-asset or portfolio purchases

Balance Sheet & Capitalization

- \$3.1 billion total bond issuance (\$1.3 billion USD bonds and €1.5 billion Euro-denominated) at rates well below W. P. Carey's average mortgage debt rate
- Issued roughly \$400 million of total equity through follow-on offering and ATM programs
- Amended credit facility increased capacity to \$1.85 billion and lowered overall borrowing rates⁽⁴⁾
- Received investment grade ratings from Moody's and S&P

Strategic

- Long-term strategy to invest exclusively for W. P. Carey's balance sheet
- Exit from non-traded retail fundraising, ultimately leading to:
 - More valuable company based on stable and predictable earnings
 - Simplified business / disclosure

Operational Efficiency

- G&A expenses reduced more than 30% since 2015 ⁽³⁾
- Continued emphasis on streamlining cost structure going forward

(1) Data as of March 31, 2018.

(2) Includes acquisition of Corporate Property Associates 15 Incorporated, which closed concurrently with our REIT conversion in 2012; as well as our acquisition of Corporate Property Associates 16 - Global Incorporated in 2014.

(3) Excludes stock-based compensation.

(4) After repaying term loans, our Unsecured Revolving Credit Facility capacity was \$1.5 billion as of March 31, 2018. The aggregate principal amount available may be increased up to \$2.35 billion, subject to the conditions to increase provided in the Credit Agreement.

Investment Strategy

- Generate attractive risk-adjusted returns by identifying and investing in net-lease commercial real estate, primarily in the U.S. and Western & Northern Europe
- Protect downside by combining credit and real estate underwriting with sophisticated structuring and direct origination
- Acquire “mission-critical” assets essential to a tenant’s continued success
- Create upside through lease escalations, credit improvements and real estate appreciation
- Capitalize on existing tenant relationships through accretive expansions, renovations and follow-on deals
- Hallmarks of our approach:
 - Diversification by tenant, industry, property type and geography
 - Disciplined
 - Opportunistic
 - Proactive asset management
 - Conservative capital structure

Transactions Evaluated on Four Key Factors

Creditworthiness of Tenant

- Industry drivers and trends
- Competitor analysis
- Company history
- Financial wherewithal

Criticality of Asset

- Corporate headquarters
- Key distribution facility or profitable manufacturing plant
- Critical R&D or data-center
- Top performing retail stores

Fundamental Value of the Underlying Real Estate

- Local market analysis
- Property condition
- 3rd party valuation / replacement cost
- Downside analysis / cost to re-lease

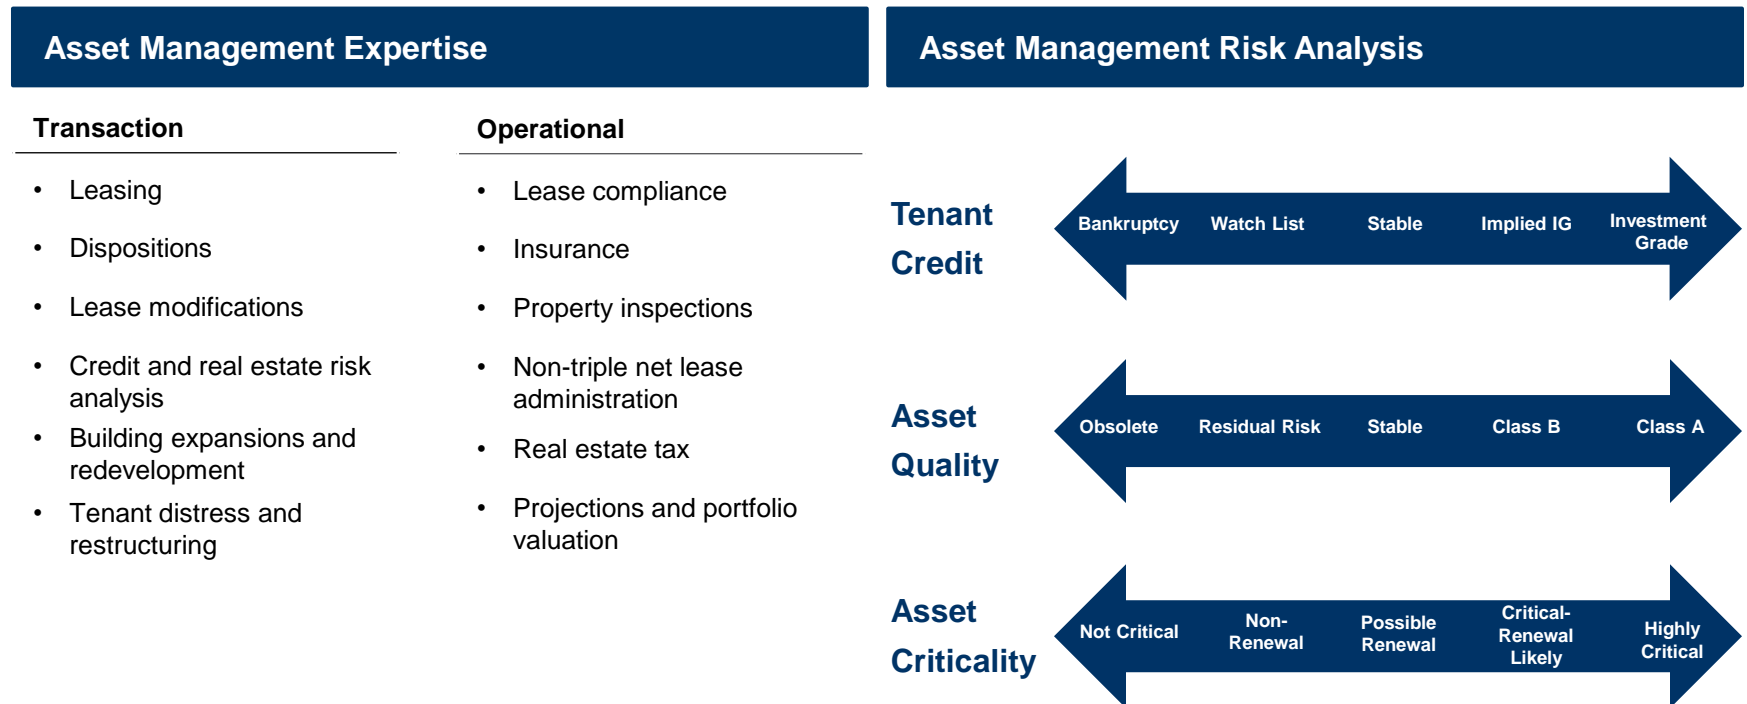

Transaction Structure and Pricing

- Lease terms – rent growth and maturity
- Financial covenants
- Security deposits / letters of credit

Proactive Asset Management

Domestic and international asset management capabilities to address lease expirations, changing tenant credit profiles and asset repositioning or dispositions

- Asset management offices in New York and Amsterdam
- W. P. Carey has proven experience repositioning assets through re-leasing, restructuring and strategic disposition
- Properties are evaluated quarterly for credit quality, asset quality and asset criticality
- Generates value creation opportunities within our existing portfolio

Cautionary Statement Concerning Forward-Looking Statements

Certain of the matters discussed in this communication constitute forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, both as amended by the Private Securities Litigation Reform Act of 1995. The forward-looking statements include, among other things, statements regarding the intent, belief or expectations of W. P. Carey Inc. or (“WPC”) and can be identified by the use of words such as “may,” “will,” “should,” “would,” “will be,” “will continue,” “will likely result,” “believe,” “project,” “expect,” “anticipate,” “intend,” “estimate” and other comparable terms. These forward-looking statements may include, but are not limited to, statements regarding: our corporate strategy, including our continuing ability to qualify as a real estate investment trust (“REIT”); our annualized dividends, including the amount and timing of any future dividends; our estimated or future economic performance and results, including our underlying assumptions regarding occupancy rates, tenant credit quality and portfolio lease terms; our future growth prospects and possible new acquisitions and dispositions, including our international exposure; our capital structure and expenditure levels, leverage and debt service obligations, credit ratings, financing transactions and plans to fund our liquidity needs; our capital markets programs, including our ability to sell shares under our at-the-market (“ATM”) program and the use of any proceeds from that program; and the outlook for the investment management programs that we manage, including their earnings, as well as possible liquidity events for those programs.

These statements are based on the current expectations of our management. It is important to note that our actual results could be materially different from those projected in such forward-looking statements. There are a number of risks and uncertainties that could cause actual results to differ materially from these forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on our business, financial condition, liquidity, results of operations, AFFO and prospects. You should exercise caution in relying on forward-looking statements as they involve known and unknown risks, uncertainties and other factors that may materially affect our future results, performance, achievements or transactions. Discussions of some of these other important factors and assumptions are contained in our filings with the Securities and Exchange Commission (the “SEC”) and are available on the SEC’s website at <http://www.sec.gov>, including “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017, and in other filings we make with the SEC from time to time. Moreover, because we operate in a very competitive and rapidly changing environment, new risks are likely to emerge from time to time. Given these risks and uncertainties, potential investors are cautioned not to place undue reliance on these forward-looking statements as a prediction of future results, which speak only as of the date of this presentation, unless noted otherwise. Except as required by federal securities laws and the rules and regulations of the SEC, we do not undertake to revise or update any forward-looking statements.

All data presented herein is as of March 31, 2018 unless otherwise noted.

Amounts may not sum to totals due to rounding.

Past performance does not guarantee future results.

Disclosures

The following non-GAAP financial measures are used in this presentation

FFO and AFFO

Due to certain unique operating characteristics of real estate companies, as discussed below, the National Association of Real Estate Investment Trusts, Inc., or NAREIT, an industry trade group, has promulgated a non-GAAP measure known as FFO, which we believe to be an appropriate supplemental measure, when used in addition to and in conjunction with results presented in accordance with GAAP, to reflect the operating performance of a REIT. The use of FFO is recommended by the REIT industry as a supplemental non-GAAP measure. FFO is not equivalent to nor a substitute for net income or loss as determined under GAAP.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from sales of property, impairment charges on real estate and depreciation and amortization from real estate assets; and after adjustments for unconsolidated partnerships and jointly owned investments. Adjustments for unconsolidated partnerships and jointly owned investments are calculated to reflect FFO. Our FFO calculation complies with NAREIT's policy described above.

We modify the NAREIT computation of FFO to include other adjustments to GAAP net income to adjust for certain noncash charges such as amortization of real estate-related intangibles, deferred income tax benefits and expenses, straightline rents, stock-based compensation, non-cash environmental accretion expense and amortization of deferred financing costs. Our assessment of our operations is focused on long-term sustainability and not on such non-cash items, which may cause short-term fluctuations in net income but have no impact on cash flows. Additionally, we exclude non-core income and expenses such as gains or losses from extinguishment of debt, restructuring and other compensation-related expenses resulting from a reduction in headcount and employee severance arrangements and other expenses (which includes accruals for estimated one-time legal settlement expenses). We also exclude realized and unrealized gains/ losses on foreign exchange transactions (other than those realized on the settlement of foreign currency derivatives), which are not considered fundamental attributes of our business plan and do not affect our overall long-term operating performance. We refer to our modified definition of FFO as AFFO. We exclude these items from GAAP net income to arrive at AFFO as they are not the primary drivers in our decision-making process and excluding these items provides investors a view of our portfolio performance over time and makes it more comparable to other REITs which are currently not engaged in acquisitions, mergers and restructuring which are not part of our normal business operations. AFFO also reflects adjustments for unconsolidated partnerships and jointly owned investments. We use AFFO as one measure of our operating performance when we formulate corporate goals, evaluate the effectiveness of our strategies and determine executive compensation.

We believe that AFFO is a useful supplemental measure for investors to consider as we believe it will help them to better assess the sustainability of our operating performance without the potentially distorting impact of these short-term fluctuations. However, there are limits on the usefulness of AFFO to investors. For example, impairment charges and unrealized foreign currency losses that we exclude may become actual realized losses upon the ultimate disposition of the properties in the form of lower cash proceeds or other considerations. We use our FFO and AFFO measures as supplemental financial measures of operating performance. We do not use our FFO and AFFO measures as, nor should they be considered to be, alternatives to net earnings computed under GAAP or as alternatives to cash from operating activities computed under GAAP or as indicators of our ability to fund our cash needs.

Disclosures (cont'd)

The following non-GAAP financial measures are used in this presentation (cont'd)

EBITDA and Adjusted EBITDA

We believe that EBITDA is a useful supplemental measure to investors and analysts for assessing the performance of our business segments because (i) it removes the impact of our capital structure from our operating results and (ii) because it is helpful when comparing our operating performance to that of companies in our industry without regard to such items, which can vary substantially from company to company. Adjusted EBITDA as disclosed represents EBITDA, modified to include other adjustments to GAAP net income for certain non-cash charges, such as impairments, non-cash rent adjustments and unrealized gains and losses from our hedging activity. Additionally, we exclude gains and losses on sale of real estate, which are not considered fundamental attributes of our business plans and do not affect our overall long-term operating performance. We exclude these items from adjusted EBITDA as they are not the primary drivers in our decision-making process. Adjusted EBITDA reflects adjustments for unconsolidated partnerships and jointly owned investments. Our assessment of our operations is focused on long-term sustainability and not on such non-cash and noncore items, which may cause short-term fluctuations in net income but have no impact on cash flows. We believe that adjusted EBITDA is a useful supplemental measure to investors and analysts, although it does not represent net income that is computed in accordance with GAAP. Accordingly, adjusted EBITDA should not be considered as an alternative to net income or as an indicator of our financial performance. EBITDA and adjusted EBITDA as calculated by us may not be comparable to similarly titled measures of other companies.

Pro Rata Metrics

This supplemental package contains certain metrics prepared under the pro rata consolidation method. We refer to these metrics as pro rata metrics. We have a number of investments, usually with our affiliates, in which our economic ownership is less than 100%. Under the full consolidation method, we report 100% of the assets, liabilities, revenues and expenses of those investments that are deemed to be under our control or for which we are deemed to be the primary beneficiary, even if our ownership is less than 100%. Also, for all other jointly owned investments, which we do not control, we report our net investment and our net income or loss from that investment. Under the pro rata consolidation method, we present our proportionate share, based on our economic ownership of these jointly owned investments, of the assets, liabilities, revenues and expenses of those investments. Multiplying each of our jointly owned investments' financial statement line items by our percentage ownership and adding or subtracting those amounts from our totals, as applicable, may not accurately depict the legal and economic implications of holding an ownership interest of less than 100% in our jointly owned investments.

ABR

ABR represents contractual minimum annualized base rent for our net-leased properties and reflects exchange rates as of March 31, 2018. If there is a rent abatement, we annualize the first monthly contractual base rent following the free rent period. ABR is not applicable to operating properties and is presented on a pro rata basis.
